Digital ENtrepreneurship Game Manual

map4n.com

Welcome to MAP4N game, an interactive and educational digital game designed to teach you about Medicinal and Aromatic Plants (MAPs) and their value-added products. This manual will guide you through the basics of the game, helping you explore, research, cultivate, and process MAPs while enhancing your knowledge and skills in agripreneurship.

About the Game

Game Genre: Strategy and Simulation

Objective: The goal is to earn points (Booklets), research MAPs, cultivate them on your farm, and produce value-added products while expanding your operations and maximizing profits.

Getting Started

To create an account, select the 'Sign Up' option and follow the on-screen instructions. After launching the game, select language from the main menu. Sound and music effects can be adjusted through the main menu settings.

Gameplay

Objective

- **Answer Questions:** Correctly answer trivia questions to earn Booklets (reward points).
- **Research MAPs:** Use Booklets in the Research section to gather essential information about MAPs, including their soil and climate requirements and general usage areas.
- **Purchase Seeds:** After completing the research phase, visit the Shop to purchase seeds. Seeds cannot be purchased without completing the research phase.
- **Planting:** Drag and drop seeds onto your farm using the planting icon located on the left side of the screen.coring
- **Harvesting and Selling:** Harvest mature MAPs and sell the products via the Shop/Sell Products section to earn Gold.
- **Value-Added Products:** Use the Factory to process harvested MAPs into value-added products. Available production techniques include distillation, extraction, and drying, depending on the product's requirements.

Scoring

- Answer questions correctly to earn Booklets.
- Convert harvested MAPs into value-added products to increase profits.
- Spend Gold to purchase more seeds and diversify your MAP production.

Tips for Success

- **Focus on Research:** Research is essential to unlock new seeds. Prioritize answering questions accurately to earn Booklets and advance in game.
- **Plan Your Farm:** Choose MAPs strategically based on their climate and soil requirements to maximize yields and efficiency.
- **Optimize Processing:** Select the appropriate processing method in the Factory based on the product's formulation to produce high-quality value-added products.
- **Diversify:** Cultivate a variety of MAPs to produce multiple value-added products and maximize earnings.
- **Reinvest Wisely:** Use your Gold to purchase high-value seeds and expand your farm for greater profitability.

Features

- **Trivia Questions:** Test and enhance your knowledge of MAPs through engaging questions across three difficulty levels: Easy, Medium, Hard.
- **Farm Management:** Experience real-life scenarios by cultivating and processing MAPs.
- **Factory:** Discover distillation, extraction, and drying techniques while producing value-added products.

Conclusion

Step into the world of MAP4N and explore the fascinating journey of MAPs—from cultivation to transforming them into value-added products. Use your strategy and knowledge to achieve success in this fun and interactive game!

Good luck and have fun growing your MAP farm! 🌱
